### Diangounte Project Area (western Mali / eastern Senegal; within the Kenieba Window)

The Diangounte Project Area comprises four permits, including three contiguous permits (Diangounte Est, Satifara Ouest and Kakadian in western Mali and covering 127 sq km), that together encompass a total area of 387 sq km. Historical and contemporary exploration activities have included soil, termite mound and rock-chip sampling and geological mapping. This resulted in the identification of two prospects that were drilled and returned intersections of 6m at 2.51 g/t Au and 2m at 6.94 g/t Au. The property also occurs approximately 6.5 km southwest of the AngloGold-Ashanti Sadiola gold mine.

The Madina Fulbe Permit in eastern Senegal encompasses an area of 260 sq km. Historical exploration activities included soil and rock-chip sampling that resulted in the identification of several prospects. Two of the prospects were drilled and returned intersections that included 3m at 41.20 g/t Au and 3m at 7.86 g/t Au.
